One-piece traffic cone

Item number : 400.000611.03.00

Details

Top shape for safety: the shape and usability of this traffic cone are retained even after accidents. The upper part of the cone and the cone base are completely made of UV-stabilized PVC and cannot be separated from each other. The optimal dimensioning ensures high stability. Even at low or high temperatures, the traffic cone remains dimensionally stable. Thanks to the recessed grip, the cones are easy to handle and do not get stuck when stacked. The WEMAS TL-traffic cones are BASt tested and approved according to TL-traffic cone 94 and DIN EN 13422 and do not contain any hazardous substances according to REACH. If you want an individual marking, you have the choice between a logo film print or a profiling in the cone base.

Highlights

- certified quality product
- stable
- REACH-compliant made of UV-stabilised PVC with high temperature resistance

Specifications

weight class	III
type	one-piece
colour	Traffic orange
foil type	RA2B
foil colour	red/white
