Barrier

Details

WEMAS barriers can be set up quickly and easily, thus saving time and money. The replaceable feet and standard hook and eyelet connections make it possible. With an appropriate base plate adapter the barrier can also be used in combination with base plates. The WEMAS barrier is tested and approved according to TL-barriers 97 as well as the ZTV-SA for installation with 2 base plates K2. The permanently blown on lamp sockets and the UV-stabilised HD-PE make the barrier extremely robust and resistant.

Item number : 305.560433.20.02

Highlights

- made of UV-resistant plastic
- with lamp spigots, suspension hooks and integrated rotating feet

Specifications

Foot	Rotatable with connecting piece
colour	Traffic white
foil type	RA2B
foil colour	white
foil height	100 mm
foil width	2.000 mm
foil sides	one-sided
material	HDPE
Weight	17,00 kg
Height	1.100 mm
Width	53 mm
Length	2.075 mm
