Reflex safety barrier (TL)

Item number : 305.460732.20.03

Details

WEMAS literally sets signals in the market with a world first: the patented, wave-shaped surface profile complements the proven retroreflective film and thus reflects the headlight light much more clearly even at flat radiation angles. The new surface profile connects with the robust and extremely resistant quality of the WEMAS product generation "Future". This includes the blown on lamp sockets, the UV-stabilised HD-PE and the centrally mounted carrying handle, which ensures ergonomic comfort. The WEMAS TL-safety barrier Reflex is tested and approved according to TL-barriers 97 and the ZTV-SA.

Highlights

- barrier with longitudinal reflection function for tradesmen with the highest demands regarding safety and product quality

Specifications

bracket	Plastic
pipe	42x700mm
colour	Traffic white
foil type	RA2B
foil colour	red/white
foil width	2.000 mm
foil sides	one-sided
material	HDPE
Weight	14,20 kg
Height	1.110 mm
Width	50 mm
Length	2.150 mm

Customizable	Yes
