

Customisation overview

Barrier technology – completely customized

Customisation in road barrier technology: put your brand in the limelight!

Your advantages at a glance

Put your brand in the limelight: give your brand an individual stage that isn't easy to forget thanks to our customised products. Make sure your customers recognise you, whether through a colour, logo or design.

Get one step ahead of the competition: the market is full of similar offers, so an individual product will stand out. Customised items attract the attention of potential customers and promote brand engagement.

Theft protection: personalised features don't only make your brand more memorable, but they're also an effective form of protection for your property.

We have 4 different options when it comes to customising products and some are even possible in combination:

- 1 Individual product colour
- 2 Digitally printed marking plate
- 3 Digitally printed stickers
- 4 Hot-stamping for logos or text

Our online product customiser

Use our user-friendly product customiser to personalise your products from your PC, tablet or mobile phone. Try it out!
